Relate Experience / Projects

Feb 2023- Current / Seminaut-INC
Junior Web Developer

- Python is used for backend development, while JavaScript, TypeScript and ReactJS are used for front-end development.
- The team consists of 10 individuals who meet weekly on Discord to discuss ongoing projects and tasks.
- ClickUp is used as a project management tool to assign tasks and ensure adherence to Seminaut's codebase standards.
- Collaboration and effective communication skills are essential for this role, along with strong technical proficiency.

Jun 2021 – Dec 2021 / Portland Open Data
Front-end Web Developer

- Working as a member of a six-person team to create a web portal that supports validating submitted datasets in order to ensure they follow a standard format.
- Responsibilities include working as a front-end developer to design and develop user-facing web and mobile applications.
- Collaborating with other team members, back-end developers, and the team leader to create visually appealing and user-friendly web pages and applications.
- Writing clean and efficient code using languages such as HTML, CSS, and JavaScript, building reusable code for future use, and troubleshooting and debugging issues as they arise

Unrelated Experience / Jobs

Jan 2023 – Apr 2023 / ATAX
Taxpreparer

- Gathering and organizing financial information.
- Preparing and filing accurate tax returns.
- Ensuring compliance with tax laws and regulations.
- Providing exceptional customer service and addressing clients' tax-related concerns

Apr 2014 – Apr 2022/ Thien Hong Restaurant
Kitchen Assistant

- Ordering supplies and ingredients as needed and maintaining inventory levels
- Maintaining kitchen equipment and ensuring it is in good working order
- Monitoring food waste and implementing strategies to reduce waste
